Project Development Phase

Import Data using Transform Maps (Spreadsheet)

1. Development Summary

The solution was developed on a ServiceNow instance by following the steps below in sequence.

Step 1: Prepare the Spreadsheet

- Open a new Google Spreadsheet and enter the sample employee data.
- Download it as **Sample Spreadsheet.xlsx**.

Step 2: Create the Custom Table

- Navigate to **Tables > Create New**. Label: **Employee Test**, Name: **u_employee_test**.
- Open the table form, use the Form Context Menu > Configure > **Form Layout**.
- Create String fields: Employee ID, Employee Name, Email, Department, Location, then Save.

Step 3: Create the Import Set Table

- Application Navigator > **Load Data**.
- Label: **Employee Import**, Name: **u_employee_import**; choose the file and click Submit.
- Confirm the success message and click **Create Transform Map**.

Step 4: Create the Transform Map

- Name: **Sample Spreadsheet Import**; Source: Employee Import; Target: Employee Test.
- Click **Auto Map Matching Fields**, then verify with **Mapping Assist** and Save.
- Click **Transform** and confirm the success message.

Step 5: Validate the Data

- Open the Employee Test table from the navigator.
- Personalise list columns and confirm all records were created.

Step 6: Enable Coalesce

- Open Transform Map > related list **Field Maps**.
- Set Coalesce = True on Employee ID and Save.

Step 7: Import Updated Data

- Load Data > existing table Employee Import; Source: File; Sheet 1, Header row 1; Submit.
- Run Transform with the same map and check Transform History.

Step 8: Build Reports

- Reports > New: create Employees by Department (Pie), Employees by Location (Bar), Employee List Report (List).

2. Sample Data Used

Employee ID	Employee Name	Email	Department	Location
SB0001	user1	user1@gmail.com	Servicenow	Tamilnadu
SB0002	user2	user2@gmail.com	Servicenow	Tamilnadu
SB0003	user3	user3@gmail.com	Servicenow	Tamilnadu
SB0004	user4	user4@gmail.com	Servicenow	Tamilnadu
SB0005	user5	user5@gmail.com	Servicenow	Tamilnadu
SB0006	user6	user6@gmail..com	Servicenow	Tamilnadu

3. Deliverables in GitHub

- Sample Spreadsheet.xlsx
- Screenshots of each configuration step
- Exported update set (optional)
